

Climate Change Assembly

How can you take action on climate?

- [Count-Us-In](#) is an initiative to support you to take a step to reduce your carbon footprint, such as driving less or eating less meat. Choose a step and select St Albans as your team to complete your registration. Small steps or large - every step matters.
- Want to talk about climate change with your friends and not sure how? Check out [Climate Conversations](#)
- Have your say on climate change action by completing this [residents survey](#) - for a chance to win £100.
- The St Albans and District's Sustainability Festival is taking place between 24th May to 6th June (SustFest). Join in with fun family activities over half term www.sustfest.org
- On 2 June 7.00-8.30pm there will be a special event for St Albans' young people (14-27) offering them a chance to talk about all things sustainable with their local politicians, including Daisy Cooper MP and Cllr Simon Grover - go to this [link](#)

What have your children learnt?

Your child attended a special assembly at school this week produced by the Sustainable St Albans Schools Group.

The assembly covered the basic science of climate change and the latest information on the impact of rising greenhouse gases on our lives locally and globally. The content also included the steps that everyone can take to reduce their carbon footprint and ended on a positive note - emphasising that the worst impacts of climate change can be avoided if people work together.

They were invited to become part of the solution by taking small steps such as wasting less and saving energy and by using their voice to influence others.
