

Climate Change Assembly

Next Steps in School

- Having learnt about climate change, your pupils may wish to take part in projects to reduce the school's carbon footprint - check out the [Sustainable St Albans Schools](http://www.sustainablestalbansschools.org) website for top tips on how to do this.
- **Let's Go Zero** is a campaign bringing together and supporting schools who are taking action to reduce their carbon footprint. Why not join the many other St Albans and District schools who are taking part?
- Want to talk about climate change with your staff and not sure how? Check out [Climate Conversations](#)
- The St Albans and District's Sustainability Festival is taking place between 24th May to 6th June (SustFest). Find out more and join in www.sustfest.org

Notes for Teachers

These assemblies have been created by the Sustainable St Albans Schools Group, each assembly is 15 - 20 minutes long. Designed for use during SustFest 24th May - 28th May, they can also be used at other times.

For the assembly aimed at Junior pupils (KS2) you will need to have Youtube and Vimeo enabled in school. If you need subtitles, these can be switched on in Youtube. There are notes with each slide to guide the presenter.

For the Reception and Infant children the assembly is a recording of children's author Ellie Jackson reading 'Hunter's Icy Adventure'. Her beautifully illustrated books can be ordered from wildtribeheroes.com and she's donating 50% to SustFest if you use the code SUSTFEST21.

We have created a flier for parents which you can download with the assembly, please send this home with your school newsletter.

.Please be aware that some of your pupils may be feeling anxious about climate change. For tips on how to support them, please [click here](#)

If you would like to develop your pupils understanding of climate change further. you can find more teaching resources [here](#)
