

ST ALBANS **COUNT US IN**

Protect What You Love

Climate change is real.

But we can still act to protect the lives of our children and leave the world better than we found it.

Count Us In is a worldwide community of people taking practical steps to protect what they love from climate change before it is too late. Now we're taking part, here in St Albans, Harpenden and the villages.

1. **Choose** the carbon cutting first step you will take
2. **Sign up** for the St Albans Climate Action Network team on Count Us In StAlbansCountUsIn
3. **See the effect** that will make, and how all our steps are adding up
4. **Take more steps** at StAlbansCountUsIn

'Make Changes That Matter' - be part of the team
